

Intermediate Bee School 2021 - Registration Norfolk County Beekeepers Association

This season, we will continue our Intermediate Beekeeping School that was started in 2020. Originally planned to be in person, we decided to move these classes to Zoom in response to the pandemic. The Zoom platform works well for classes, in some respects better than a live meeting. There's less distraction, it's more comfortable for the presenter, and the recordings can be saved for future viewing. Participants don't have to drive to the meeting on a weeknight.

This year, we'll cover the following topics (not necessarily in this order and some may be combined):

- The Beekeeper's Year
- Spring Management
- Apiary Planning and Record Keeping
- Maximizing Honey Production
- Varroa Mites and their Control
- Other Colony Diseases and Problems
- Hive inspections - planning, what to look for
- Practical Genetics for Hobby Beekeepers
- Queen Rearing for Hobby Beekeepers
- Making Late Season Nucs for Overwintering
- Advanced Beekeeping Equipment
- Winter Preparation
- Obtaining Bees - what, where, why

Class dates are: 3/3, 3/17, 3/31, 4/14, 4/28, 5/12, 5/26, 6/9, 6/23, 9/8, and 9/22.
Wednesday nights, 7:00 PM. Classes will be recorded. Returning students from last year will pay \$25, new students \$50
